War News Summary

Germans Falling Back

London, Sept. 8.—British hopes in the final result in the great battle now being waged along a front of some 100 miles from, roughly speaking, Paris to Verdun, run extremely high. From excellent authority a well-informed correspondent understands that numerical superiority which hitherto has been so great an asset in German calculations, no longer exists, and that in fact the allied forces are equal, to even if not somewhat superior, to the German armies.

Paris, Sept. 8.—Accounts of wounded soldiers who reached Paris this afternoon indicate that the result of three days' fighting in the Champagne country has been more favourable to the allies than at first supposed. They say the German losses in killed were enormous, and that a great number of prisoners were taken. One French officer estimates the prisoners at 20,000. The Champagne districts include parts of the departments of Marne, Aube and Haute Marne.

The battle which is proceeding to the east of Paris appears to be the most important and stubbornly fought combat of the campaign. The military authorities decline to give any indication of the number of men engaged, but thousands are participating on both sides.

According to those who are in a position to obtain authentic information the casualties have been so great that the Germans have requested an armistice of twenty-four hours. The armistice was refused with the response: "We grant you that time to get out of France."

The Russian troops are still engaged in fierce combats with the Austrian forces in the Hava district, Russian Poland. Fighting is almost continuous and the outcome in this region has not been determined.

France announces that it is sending reserves to Morocco to release regulars now there for service with the army in France.

Christoph Pankhurst, the militant suffragette leader, has rung herself on the side of the prime minister in the present critical condition of the country. She says that the militant women are ready to take their place in the line or help save the nation in any way deemed most advisable.

War Jottings

London, Sept. 3.—Lieut. Von Tripitz, son of the German high admiral, captured in the recent naval battle in Heligoland, led a mutiny at the Redford barracks, near Edinburgh, early today, in an attempt to escape. With about 20 fellow German captives he ruled of the guards. After a sharp fight the mutiny was quelled. The lieutenant got through the guard but was caught while climbing the barracks' wall, along the railway. He was taken under a strong guard to Edinburgh Castle.

London, Sept. 4.—Casualty list of the British forces operating on the continent shows that the British losses in the seven days' battle were about the same as in the first and they total 15,000.

Frederick, N.D., Sept. 3.—New Brunswick's gift to the British Empire in the present crisis is 100,000 bushels of New Brunswick potatoes. The New Brunswick government followed the precedent set by the Dominion government by setting in touch with the imperial authorities and ascertaining what would be most acceptable as a gift from this province.

Toronto, Sept. 4.—Hon. Jas. Duff, minister of agriculture, in view of the increased call for foodstuffs in Europe, on account of the war, has issued an appeal to the farmers of Ontario, urging them to devote as large an acreage as possible this year to fruit wheat, both as a patriotic duty and as a means of establishing trade connections.

The right wing of the German army, considerably battered by the heavy fighting of the last few days, is continuing its retrograde movements. It is falling back with the British army fast on its flanks.

Everything points to the movement of the British army to the east rather than a temporary retreat.

PONOKA RIFLE CLUB

The scores for the shoot last week are as follows:

	Yds.	Yds.	Yds.	Total
1. September 21	25	13	13	51
2. W. W. Parks	25	25	25	75
3. F. W. Parks	25	25	25	75
4. C. Chandler	25	31	25	81
5. J. Henderson	25	25	17	67

Last Sunday evening Rev. Mr. Henderson preached in the school house a large number of young folks were present. He announced that there would be a quartette meeting on Friday evening at eight o'clock, and Saturday afternoon at two o'clock, and evening and Sunday at 10 o'clock. Everybody is welcome.

Mr. Mills had a nice long visit from his aged aunt and uncle on Saturday last week, and they are greatly taken up with this part of the country.

PATHFINDER SUNK BY FLOATING MINE

London, Sept. 7.—The destruction of the Pathfinder occurred at a point ten miles northwest of St. Abbs Head, Scotland. While she was patrolling the coast, the cruiser struck a mine which exploded near her magazine. Traversing, ten miles distant, felt the shock. From Eyre Mouth, four miles from the scene of the explosion, a huge cloud of smoke was visible on the horizon. A torpedo boat destroyer was the first to reach the scene. She was followed by St. Abbs Head motor boat. The Pathfinder was literally blown to pieces and the sea strewn with wreckage. The devastating effect of the explosion is emphasized in the report of Cassian Nesbitt of the Saint Abbs Lifeboat. He said that for a mile and a half the water was strewn with wreckage of every description. There were little of the pieces that were larger than a man's leg.

A HEAVY DEFEAT

Rome, Sept. 1, via Paris.—Sir John Simon, the Russian foreign minister, has telegraphed to the Russian embassy here that the Austrian defeat near Lemberg was greater than at first appeared. The Austrians in Europe left on the battlefield behind 25,000 men, 200 cannon, flags, ammunition carriages and thousands of horses.

The foreign minister adds that the Russians have invaded Austria from Tomazow.

As a whole the Austrian division was practically annihilated. Among the killed were the commander-in-chief and his staff. A large number of prisoners were taken including several officers.

Nish, Serbia, via London.—According to an official organ, Nish, Novine, following spoils were captured by the Serbians at the battle of Jadar:

A hundred cannon, of which 92 were field guns; 5 siege guns, 2,500 horses, three hospitals of 5,000 beds; 37 mitrailleurs, 37,000 Mauser rifles, 114 field caissons containing 500 shells for each cannon, ammunition and 4,000 prisoners, including a large number of officers and one military band with its conductor. Three regimental cash boxes full of money and one aeroplane also were taken. The Austrians lost two estimates to number between 30,000 and 42,000. General Yovanovitch reports that he alone had buried 10,000 of the enemy's bodies. Other Serbian generals' reports of their successes have not yet been received.

THREE NATIONS AGREE

London, Sept. 5.—Russia, Great Britain and France today signed an agreement that none of the three would make peace without the consent of all three nations.

Following is the text of the protocol signed today by the representatives of the three powers:—

The undersigned, duly authorized thereto by their respective governments, hereby declare as follows:

The British, French and Russian governments mutually engage not to conclude peace separately during the present war. The three governments agree that when the terms of peace come to be discussed, no one of the allies will demand conditions of peace without the previous agreement of each of the other allies. In fact whereof the undersigned have signed this declaration and have affixed thereto their seals.

Done at London in triplicate this fifth of Sept. 1914.

E. GREY,
British Secretary of Foreign Affairs,
PAUL CAMBON,
French Ambassador to G. Britain,
COUNT BENCKENDORFF,
Russian Ambassador to G. Britain.

His Torn From Her Head

G. D. Clark has just received from his home in Wisconsin the terrible news that his sister-in-law, Mrs. B. F. Clark, residing on a farm just south of Drabolt, met with an accident on August 31st that may cause her death. While watching a cream separator at work, run by a gasoline engine, one of the feet set on the engine to go underneath the red connecting both machines, when her hair was caught on a set screw in the reel, tearing the scalp off her head from the base of the brain over the top of the skull to the left ear, and completely tearing off ear and eyebrows. She was taken at once to the Mercy Hospital, Janesville, Wisconsin, where she is receiving all possible aid.

GERMANS AND AUSTRIANS NEED NOT FEAR

A statement has been issued by the government reassuring German and Austro-Hungarian residents in Canada that they need not be apprehensive as to their safety at the present time. Many residents of this nation have been particularly anxious, and have been under the impression that the government intended to deprive them of their freedom to hold property and carry on business. In some cases Germans have been known to sell their property at a great sacrifice. The government reassures these people that their apprehensions are quite unfounded. All Germans and Austrians so long as they respect the law are entitled to its protection and have nothing to fear.

HEINTZMAN & CO., LTD.

I have secured the agency for the above well-known company. Plans for sale. The best made, and on easy terms. Have made arrangements to have an expert Piano Tuner visit for the purpose and terms apply.

very jealously guarded.

Another feature of the situation

is that the British Government is

purchasing a large number of

Western mounts who will thrive

on Western Canadian feed

and also which they have been

imported to. These conditions

will readily convey to the farmer

in these districts where hay is

plentiful, the need for every blade

being cut and carefully stacked,

prior to the demand, which is sure

to come during the winter.

It is not improbable but that

prices may well demand a much

higher figure than previously, as

timely a different more valuable

grasses will be exported and the

demands for the former will pro

portionately increase.

It will be the wise farmer who

will take advantage of these

conditions and see that when har

vesting is over, his fields are sated

with a number of good hay stacks.

There are many who would not be

surprised during the coming winter

to see prairie hay exported, and I

have no doubt should this con

dition arise, that the railways will

put in through rates to Britain

and other countries from Alberta,

in order to facilitate the move

ment, and farmers should see to it

that this Province is in a position

to supply a large amount of hay

when the demand arises.

THE OLD QUESTION INTERESTS THE WEST

Mere About Implements—Difference in Retail Cash Prices Slight Here and There

After the budget speech is made by the Finance Minister all the items that affect the revenue of the country have to be considered in committee of the whole when an opportunity is afforded to members to discuss the charges, more or less free from party bias.

On April 28th, in reply to the questions of Mr. A. K. MacLean, member from Halifax, and Mr. E. W. Nesbitt, member from North Oxford, Hon. Mr. W. A. R. D. MacLean, Minister of Finance, submitted the following information with respect to freight charges:

"I have looked very carefully into the question of freight charges. For a period of over a year and a half or two years I have been giving very full and careful consideration to the question of the duty upon agricultural implements. In view of the statements made here the other night by my hon. friend from Assiniboia (Mr. Turfitt), with regard to the rates on binders at Minneapolis, I desire to place upon 'Hansard' for the information of the House, a statement as to the difference between the freight rates from Chicago to Canadian points and to American points opposite Canadian points, and from Toronto to Hamilton to points in the Northwest."

"I find that the freight charges upon an eight-foot binder are as follows: Freight on Eight-foot Binder:

From Chicago to—	
Minneapolis	2.90
Park, N.D.	8.19
Grand Fork, N.D.	9.16
Valley City, N.D.	17.48
St. Thomas, N.D.	10.53
Devils Lake, N.D.	11.31
St. John, N.D.	12.48
Rocklake, N.D.	12.48
St. Mary, N.D.	12.48
Lanford, N.D.	12.47
Minot, N.D.	12.47
Cardwell, N.D.	12.47
Williston, N.D.	14.52
Harve, Mont.	22.81
Great Falls, Mont.	23.01
Billings, Mont.	21.84
Winipeg	12.52
Brandon	12.59
Weyburn	15.79
Hegira	15.18
Calgary	12.59
Edmonton	12.59

From Hamilton to—	
Winipeg	13.50
Brandon	14.40
Weyburn	17.48
Regina	17.80
Calgary	18.00
Edmonton	18.00

"I looked into the question and I found that the Canadian manufacturer, speaking generally, has a decided advantage compared with his American competitor so far as freight rates are concerned. The rates from Hamilton to Winnipeg district, because the Northwest is divided into districts for the purpose of selling agricultural implements, are higher than rates from Chicago to points in which they are in competition with the manufacturers here. The Canadian manufacturer has two disadvantages. The first is that his cost of production is higher than the cost of production in Chicago or other American points, for the reason that as the House is aware, the cost of production is higher here, owing to the greater tonnage, the lower the cost of production, the lower the cost of production."

Cost of Production
"I do not wish to discuss this matter in a political way but rather in an economic or business way. The International Harvester Company has an establishment in Hamilton. The tangible property in Canada of that concern amounts to about \$4,000,000. It has a very large plant in Chicago. We looked very carefully into the question of the cost of production at Hamilton and at Chicago and found a very substantial difference in favor of Chicago by reason of the greater tonnage turned out here. Speaking from recollection, the difference was either \$7 or \$9 upon an eight-foot binder."

"I sent a representative from my office to look into the factory cost in both places. In addition to that, as our age as December, 1912, I asked the Commissioner of Customs to send a representative to our Canadian manufacturers of agricultural implements and to those engaged in the business in the United States, and also to their agents along the border, with a view to ascertaining as accurately as possible the difference in the selling price of agricultural implements on either side of the line. That report was made. It contains a good deal of matter that is confidential, and necessarily so, because our agent was given access to the

District News

BUCKHORN
A good crowd gathered at the home of O. F. Micky on Friday last. Dancing, the chief feature of the evening, was indulged in by both young and old. Good music and plenty of room made the night most enjoyable.

We are pleased to hear that Mr. and Mrs. Hugg have returned from

Spain and was treated in a very full fashion by all the manufacturers. I have in my possession a record of the selling prices which might form a basis of comparison for points in Canada with points in the United States, where freight rates are not equal.

Retail Price of Implements
There is an enormous amount of capital invested—a great deal of English capital—in the manufacture of agricultural implements in Canada, particularly in Ontario. So far as the East is concerned, there is very little difference in the price of agricultural implements on either side of the line. The statement which I will give the committee, which is taken from the report made by Mr. Costello, a very trusted and, I believe, competent official of the Customs Department, gives the following as comparative prices, cash on delivery, of eight-foot binders:

United States:	
Park, N.D.	\$17.50
Grand Fork, N.D.	14.50
Valley City, N.D.	15.00
Devils Lake, N.D.	15.00
Lanford, N.D.	16.00
Minot, N.D.	16.00
Cardwell, N.D.	16.00
Williston, N.D.	18.00
Harve, Mont.	19.00
Great Falls, Mont.	19.00
Billings, Mont.	19.00

Canada:	
Winipeg	16.00
Brandon	16.00
Weyburn	16.00
Regina	16.00
Calgary	17.00
Edmonton	17.00

The difference, therefore, would run from \$10 down to \$10.50 in favor of the price at the American points. The committee will bear in mind two things that I have mentioned. First, that the Canadian manufacturer is at a disadvantage in respect of freight rates, which are higher from Toronto or Hamilton to the Canadian points than they are from Chicago. Second, the cost of production in Hamilton, as shown by the returns of the International Harvester Company, are considerably higher in that city than they are in Chicago. Bearing these two facts in mind, the committee will have an explanation at least for the fact that the cash price of agricultural implements is somewhat higher in the Canadian West than it is across the line."

The comparative figures which I have given are in each case for an eight-foot binder. I understand that the Canadian machine, at the price which I have mentioned, carries an extra knife and certain other equipment which at \$7, which is not carried by the American binder, is an answer to inquiries made, telegram has been received from the following firms in North Dakota, setting the cash retail selling price of eight-foot binders: Lewis and Burroughs, St. Mary, 1915; Atkins and Lee, Rock Lake, 1915; D. G. McLehane, St. Thomas, 1915; Hansel and Naimith, Regina, 1915."

Mr. McGill, the Liberal member for West Kent, brought out the fact that the eight-foot binders, on which prices were quoted at different points in Canada and the United States, had different attachments. He said that the Chicago firms for their American trade supplied binders with only one knife, whereas the Canadian manufacturers supplied an extra knife, the difference in value, in favor of the Canadian implement, being \$7.00.

THE FLAX INDUSTRY

Enormous Hidden Asset—Efforts Made to Secure Bounty for Canadian Flax

While the Government did not decide to grant a bounty to the flax industry at the present session, it has been informed in certain quarters, from the tone of the Finance Minister's remarks on the question, that there is some probability that the Government will come to the assistance of this industry in the near future.

Hon. Mr. White, Minister of Finance, said in part: "There has been placed before me recently the question of the development in Canada of flax fibre production. I think that the development of the industry of flax fibre production would be of great advantage to certain parts of Canada."

It is our intention to look fully into the matter and see whether a reasonable bounty would have the effect of contributing to the development and development."

The West can demand bounties for the flax industry with some reason, seeing that they have paid their share of the bounty on pig iron, steel, etc., for many years. No one in Eastern Canada would oppose a bounty on anything that would help build up a big industry in Western Canada.

their visit to the States. They were glad to get back to Sunny Alberta.

A. O. Olfield, who has been visiting with Mr. Collins for the past month has now returned to Calgary.

Threshing machines will soon be in evidence again. The grain will be cut and stacked, and there proves to be a good yield of it.

Church service was held in the

Crystal Springs schoolhouse on Sunday last.

Mrs. C. Eley and Mrs. Ferrell, who have been visiting with Mrs. R. Davidson, have returned to Delburne.

In this really "bumby West" Lee a people never before in a country young and fair, with a kind and friendly air.

It is coming right along. And is coming mighty strong. Where the summer leaves show where the winds are also low. Where the future has a show.

Some say I have gone. Nature could give me more. Land of green hills and pastures too. What more could it lack for you?

Given then of provinces there, I want land from sea to sea. Hurry boys and do not tarry, come when the light and airy, then all are easier to carry in binders.

People come from far and near: Opportunity is here. Buy your land and get the dough. Don't neglect it, it goes. You can see your shackle grow, in Buckhorn.

This is just the place for you. And for the future of you. Success here is sure to come, you can make things here. Do not have this chance undone.

No prettier scene in a thousand miles. Nature beams on her with smiles. Land of game both great and small. There is real good sport for all.

Have, Sept.—A story of German daring, which Gen. Hancock has the best reasons for believing to be true, has reached him. On Monday last a motor car was seen advancing toward Havel from the direction of Harbours. Sentinels posted outside the town, charged but the car did not pull up. It was then seen that it contained five men wearing British uniforms. The sentry suspected a ruse and at once opened fire, but without effect. The car of another car, however, proceeding in the direction of the town, acted with great promptitude. He drew his vehicle across the road and the next moment the car had disappeared and in took the five occupants. All proved to be Germans. The car was armed and carried a quick firing gun. The German prisoners are now lodged in the barracks.

Millinery Opening

On Thursday, Sept. 13rd

I will open my new Shop next to the Empress Theatre, Ponoka, where I extend a cordial invitation to all to come and inspect some of the Newest Models in Hats and Trimmings.

Thanking you all for your Patronage in the past.

I am,

Yours Obligingly,

Mrs. E. Hendley

PRESERVING FRUITS

The Season for the best Fruits is now on and we intend keeping a good stock of

Peaches, Plums, Apples

AND

ALL KINDS OF SEASONABLE FRUIT

WE HAVE JUST RECEIVED A CAR OF

ROYAL HOUSEHOLD FLOUR

And if you propose laying in a stock before the war jumps it up again talk to us.

We can put you in right on it.

F. E. ALGAR, Ltd.

NEXT DOOR TO POST OFFICE

PONOKA

Large tract of good valley farming land just thrown open for free settlement in Oregon. Over 200,000 acres in all. Good climate, rich soil, and does not require irrigation to raise finest crops of grain, fruit and garden truck. For large map, full instructions and information, and a plot of several sections of exceptionally good claims, send \$3.40 to John Kautz, Oregon City, Oregon. Three years a U.S. surveyor and timberman. An opportunity to get a good fertile farm homestead near town and market.

PONOKA LAND CO.

EWES FOR SALE

180 Ewes and 400 Rams, 2 and 3 years old, and 11 purchased Hampshire Rams, for Sale or Trade for Cattle.—Apply, Lee Watson, Ponoka.

AGRICULTURAL SCHOOLS

The Ministers of Education are co-operating to still further increase the efficiency of the Provincial Agricultural Schools. The teaching staff of the three institutions are meeting in Ods during the month of September for the purpose of standardizing their work. A number of the special courses of instruction offered, and for the special consideration of the problem and methods of teaching. The variation in the age and previous educational attainment of the students is a peculiar difficulty. The help of a professional course for those engaged in instruction is a fully recognized. It is these two considerations which has led the Government to make the necessary arrangements for this special course of one month's duration.

This is the first time on the continent that such a professional course has been given to the instructors in agricultural schools or colleges, and is another evidence of the fact that the Minister of Agriculture and the Board of Agriculture and Education are determined that the instruction provided at the Agricultural schools shall be as efficient as possible.

The course will be under the immediate direction of Dr. A. G. Miller, Provincial Director of Technical Education, assisted by the Principals of the Agricultural Schools and specialists from the Provincial Normal Schools.

Firebox linings withstand years of use because made of McClary Semi-Steel. See a

McClary's Kootenay Range You'll notice the linings are made in nine pieces. There's a good reason—ask the McClary dealer.
